## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 17-25, and 31, drawn to a process.

Group II, claims 26 and 30, drawn to an apparatus.

Group III, claims 32 and 33, drawn to a product.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: In the present case there is no common "special technical feature" because the general inventive concept as set forth in the claims does not define over the prior art. Applicant inventions, ie, apparatus for performing process, and product do not fall within the permissible invention categories of PCT Rule 13.2 and 37 CFR 1.475.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3663

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
